7610 people visited our market vendors in 2024

The Gallatin Farmers Market is managed by the Gallatin Area Chamber of Commerce and is owned by the City of Gallatin. The mission of the Gallatin Farmers Market is to provide a venue where local farmers, producers, and artisans come together to provide a variety of locally fresh, locally grown, locally sourced, and locally produced items to sell directly to consumers. The Market strives to educate the community about the benefits of buying locally created/grown products, and the importance of supporting our local agricultural economy. The space also provides opportunities for social interaction, gatherings and special events.
